Flawless skin equals confidence.

Confidence equals power.

I want to empower women with knowledge and beauty.

-Marina I. Peredo, M.D.

**DR. PEREDO'S FOX & FRIENDS APPEARANCE!**

Dr. Peredo recently appeared on a Fox and Friends morning news segment to discuss the dangers of using smart phone apps to diagnose melanoma.

These new apps are designed to calculate a mole’s risk of being melanoma as low, medium or high, even in the early stages, based on photos taken with a smartphone and information provided by the user. These apps are not necessarily supported by scientific evidence and may even be misleading for the consumer. A mole that comes back as low risk based on photographic evidence and app analysis may not in fact be a low risk.

The best way to ensure that you are diagnosed correctly is to schedule a yearly skin cancer check. One in five Americans will be diagnosed with skin cancer during their lifetime. Diagnosing the disease at the earliest possible stage is critical.

Schedule your skin cancer check today with one of our providers! And stop by Spatique to pick up your sunscreen, the best defense against damaging UVA/UVB rays.

**5CC CONFERENCE IN CANNES, FRANCE!**

Dr. Peredo was invited to speak at the 6th 5CC Conference in beautiful Cannes, situated on the Côte d’Azur. The 5CC Conference has established itself as one of the finest educational opportunities in the world, covering all the many facets of the aesthetic environment. Lectures and discussion cover the world of injectables — fillers and toxins; all of the energy based devices that are impacting our non-invasive treatments; skin care and how it impacts our therapies; chemical peels and what is new; home devices and what we can expect in the coming year; and many other topics.

Dr. Peredo presented two different lectures: In pursuit of beauty through the decades and the Non-invasive lift featuring Ultherapy combined with other modalities. It was an exciting opportunity to meet physicians from all over the world and share information and techniques!

With 600 attendees and incredible speakers who are the most respected aesthetic physicians, dermatologists, and plastic surgeons from all the wonderful continents the 5CC Conference is rapidly becoming one of the most respected international conferences worldwide.
POST-SUMMER SKIN
Transition into fall with key treatments and skincare products that can help restore skin smoothness and undo photo-damage.

Chemical peels
Schedule a series of chemical peels with our staff. After reviewing your skin’s condition and needs, we will recommend the right series of peels to resurface and rejuvenate skin. Your skin will have a new new perspective with little to no downtime!

Rejuvapen
If your skin needs deeper freshening, Rejuvapen may be the solution. This non-invasive treatment creates tiny “wounds” to increase collagen. Skin feels like sandpaper for a few days afterwards, but the results are very visible within 3-5 days.

Laser resurfacing
If you are showing lines, wrinkles and skin discoloration, schedule a consultation with our staff to discuss whether laser resurfacing is for you. Within a few weeks, we can restore a much more youthful appearance!

Transition your skincare regimen for the cooler fall months. We can suggest the right regimen for you during any consultation or following a procedure.

Ask us for advice and we are happy to help design your personal regimen!

NOW YOU CAN REFRESH THE APPEARANCE OF YOUR AGING HANDS BY RESTORING VOLUME WITH RADIESSE®.

RADIÉSSE® for Hands is the first and only FDA dermal filler approved to correct volume loss in the hands.

Over time, loss of volume in the hands can leave skin looking thin and wrinkled, revealing unsightly tendons and veins. As one of the most visible parts of the body, the appearance of the hands can be a significant indicator of age.¹

With just one quick treatment, RADIÉSSE for Hands provides immediate volume for smooth, natural looking results that last up to 1 year.

Immediate volume correction that lasts:
- Quick in-office treatment
- Lasts up to a year in most patients
- Clinically proven safe and effective

We are proud to announce that Dr. Peredo is a Certified Injector of RADIÉSSE®

This designation is awarded only after completing specified training in the aesthetic treatment of hands.

Call today to schedule your hands consultation with Dr. Peredo and determine if RADIÉSSE® is right for you!

*Cannot be combined with any other offers. Valid through October 31st, 2015.

Analyze your skin.
In the same way you need to switch up your closet to meet the changing weather, your skincare routine needs some switching up as well. Check your skin for subtle changes such as dryness or tautness. It may be as simple as switching your cleanser from a gel to a cream.

Keeping clean!
Summer may be over but the fall is filled with its share of nights on the town, parties and dates. Fall make-up is a little deeper and a little more dramatic than summer make-up. It is important to make sure you cleanse thoroughly before bedtime to avoid clogging pores.

Do not stop wearing sunscreen!
UVA and UVB rays are as prevalent in the fall as they are in the summer. If you hate the way sunscreen feels under your make-up, try using a mineral sunscreen powder that can be re-applied throughout the day.

Schedule your skin cancer check!
Fall is the perfect time to schedule an appointment with your dermatologist to get an annual skincare check.

Beat the rush!
7The holidays are just around the corner. Get your skin holiday ready by scheduling some quality time with your aesthetician or dermatologist. Now is the time to start thinking about skin texture and getting rid of blemishes, hyperpigmentation, lines, wrinkles or whatever your personal concern is. By scheduling your treatments ahead of time, you can beat the last minute rush!

STAFF PICKS FOR FALL!

CLEANSER
Spatique Alpha Cleanser
A refreshing blend of Papaya Enzymes and Salicylic Acid gently exfoliate during cleansing.

ANTI-AGING SUNSCREEN
Revision Intellishade
Adaptable color, moisture, skin rejuvenating peptides and SPF 45 make this our go-to skincare product for everyday multi-tasking.

EXTRA MOISTURE
SkinMedica Dermal Repair
If your skin is feeling drier than normal after summer sun and fun, this product will restore the moisture balance in no time!

FALL MAKE-UP
Fall is the ideal time to switch up your make-up. Schedule a lesson with Shelly at Spatique for the ultimate fall look!
Sub mental fullness, generally referred to as “double chin”, is a common issue among men and women.

A “double chin” impacts a broad range of adults and is not limited to those who are over-weight. It impacts adults of normal or average weight and can be caused by aging and genetics. It is often resistant to diet and exercise alone.

According to a 2014 survey by the American Society of Dermatologic Surgery (ASDS), over 2/3 of consumers are bothered by submental fullness—nearly as many as are bothered by lines and wrinkles around the eyes!

Kybella is the first FDA approved injectable to address under chin fat melting. A series of injections under the chin, using a molecule naturally present in the body called deoxycholic acid gets rid of fat under the chin area permanently.

Several sessions based on each individual’s needs, lasting 15 to 20 minutes are necessary.

Schedule your consultation with Dr. Peredo to see if Kybella is right for you!

NOW AVAILABLE!
UNDER CHIN FAT MELTING!

Try Kybella and take home a FREE Revision Nectifirm with your first treatment!

*Offer while supplies last. Cannot be combined with any other offer.
